

**COVID** was planned. **T**he virus is caused by 5G. **C**oViD is a sham, a hoax. **I**t's no worse than the flu. **T**he CoViD-19 vaccines were developed much too quickly, they're only 'experimental'. **D**on't wear masks, they make you sick. **T**he vaccines can make you infertile. **H**ydroxychloroquine and ivermectin are effective alternative treatments. **T**he vaccines cause autism. **T**hose who take the third injection, the booster shot, will die within a year or two (the jabs are designed as a measure of population control, to ward off over-population). **E**lites use the virus to profit from the vaccines. **T**he vaccines are sinister, used to implant nano chips to control people. **C**ovid vaccines genetically engineer users. **T**hey attack the placenta, cause miscarriages. **T**he vaccines contain a 'live virus' that can be 'shed' from person to person. **I**f you believe any of that ... you probably also believe in unicorns and fairies.

**CONFUCIANISM.** Confucianism is a tradition, a philosophy, a humanistic or rationalistic religion, a system of governing ... or simply a way of life. **C**onfucius (551 BC - 479 BC) was a Chinese teacher, editor of Chinese classic texts (including the Five Classics), a politician and a philosopher. **C**onfucius' philosophy emphasized personal and governmental morality, correctness of societal and individual relationships, justice and sincerity. **C**onfucius' moral teachings stress the application of skilled judgement, rather than knowledge of rules. Confucian ethics are deemed virtue ethics. **C**onfucius said: Wisdom can be gained through three methods: Reflection, the noblest ... Imitation, the easiest ... Experience, the hardest.

*Confucius was one of the earliest sages to formulate the universal Golden Rule: 'Do to others as you want done to yourself.'*

*Confucius taught its negative form too, referred to as the Silver Rule: 'What you do not wish for yourself, do not do to others.'*

*He also taught the rule of Mutual Reciprocal Respect: 'If you want freedom & prosperity, give others freedom & prosperity.'*

*Confucianism holds humans are fundamentally good, teachable and improvable through personal and communal endeavor.*

*Confucianism espouses the concept of 'the secular as sacred'. Hence it deems the ordinary activities of human life to be sacred.*

vir·tue eth·ics

*Virtue ethics emphasize character over obedience; i.e. to do what is right, rather than what is required by rules or the law.*

*Chinese founder of Alibaba, Jack Ma, says: "The philosophy of balancing is similar to the management of a company.*

*"I obtain management from Confucianism, leadership from Taoism and how to live a normal life from Buddhism."*

**CONSISTENCY.** To be consistent may be counterproductive. Variety in our life is paramount. The only thing consistent should be change ... for innovation, progress and revolution (of the mind). **C**onsistency can be stifling and reactionary (except with love). A related concept is that of equanimity ... it seems like a kind of death, a taking away of one of the archetypal human experiences: **O**ur emotions; negative emotions can be a great experience in life.
