

This is the opinion of the ABC that is espoused by the writer of these emails:

**“Anybody watching the ABC ... to do so means one has to suspend reality, ignore facts and be prepared to be brainwashed into a stupefied low brain human being.”**

Note the degree of insult delivered here, in view of his comment:

“You need to suspend personal attacks on people who disagree with you.

“I know it is part of the "Rules for Radicals" strategy that Lefties like to use, but it is objectionable and offensive.

“I also recommend you need to be more circumspect about sources of information which have previously been shown to be unreliable and deceptive eg: ABC, Sydney Morning Herald, Age Newspaper and Guardian.”
